CNS Update: 2017-18 Washington Public School Data for Area Eligibility Report

The [2017-18 Washington Public School Data for Area Eligibility Report](#) is now available.

This report may be used to establish area eligibility for the Child and Adult Care Food Program (CACFP), Summer Food Service Program (SFSP) and Seamless Summer Option (SSO). Area eligibility may be assigned if school data indicates that the proposed meal site is located in an attendance area of a public school where at least 50 percent of the children are eligible for free or reduced-price school meals.

The [Area Eligibility in Child Nutrition Programs reference sheet](#) provides more details on area eligibility.

Please contact your program specialist with any questions.

OSPI CHILD NUTRITION assists school districts and other institutions in providing quality nutrition programs that promote life-long healthful living while providing nutritious meals each day that prepare children for learning.
