

Meeting Needs and Wants

As a citizen and member of a community, you should know how people meet their needs and wants (their economic systems). You will analyze the economic systems that two societies use to meet the needs and wants of their citizens.

Your Task

In a written essay or presentation, you will:

- Draw a conclusion about how two groups met their needs and wants. To reach this conclusion, you should compare how the two groups met their needs and wants, being sure to discuss one similarity or difference.
- Explain three or more examples of how the two groups met their needs and wants (may include laws, values, or customs). Include at least one example per cultural group.
- List two or more sources, including the title, author, type of source, and date of each source.
