PURPOSE/BACKGROUND

[Revised Code of Washington \(RCW\) 28A.300.645](#) requires the Office of Superintendent of Public Instruction (OSPI) to monitor the degree to which public schools and school districts are meeting the following school safety and student wellbeing requirements not less than once every five years:

- [RCW 28A.320.125](#), Safe school plans—Requirements—Duties of school districts and schools—Drills—Rules—First responder agencies
- [RCW 28A.320.127](#), Plan for recognition, screening, and response to emotional or behavioral distress in students, including possible sexual abuse
- [RCW 28A.320.123](#), School-based threat assessment program

Beginning with the 2021–22 school year, OSPI will survey one-fifth of Washington school districts each year on the existence of plans, plan components, and plan characteristics. Data collection for this year will begin in March 2022 for the first set of 66 districts.

SURVEY DISTRIBUTION

The data collection will be conducted through three separate surveys, one for each type of required program or plan.

Each survey will be sent to the school district representative best suited to answer questions about each plan or program. OSPI will be working with Educational Service District (ESD) Regional School Safety Center (RSSC) staff prior to March 2022 to determine who specifically will be sent the survey. If a suitable staff member cannot be identified, then the survey will be sent to that district's Superintendent. Each survey must be completed by April 15, 2022.

The following districts will be surveyed during the 2021–22 school year:
