Introduction

Section Three of this publication contains reports that have financial information for each public school district, charter school, and tribal school in the state of Washington. These reports are from the school district financial report F-196 for FY 2019–20. The reports are arranged so comparisons can be made among school districts, charter schools, and tribal schools with a similar number of students or by county. Please refer to the *Accounting Manual for Public School Districts in the state of Washington* for detailed definitions of expenditure and revenue categories. The student enrollments used to calculate total expenditures per pupil include FTE for regular K–12, skill centers, summer schools, detention centers and other state institutions, and special education headcount for birth-to-two and three-to-five programs, as reported to OSPI.

General Fund 2019 Tax Collection Survey and Three-Year Average by County

The General Fund Tax Collection Survey is provided to assist school districts in budgeting property tax revenue. This report should help school districts develop realistic budget estimates.

The tax collection data consists of:

- Net General Fund excess Maintenance and Operation (M&O) levy collections
- Spring tax collections
- Fall tax collections

The rest of the report compares spring, fall, and total General Fund tax collection percentages for levies collectible for the recent three-year period for each school district, county, and the state. Also shown is a three-year average of spring, fall, and total tax collection percentages. The three-year average was determined by dividing the tax collected in the last three years by the total levy as certified and adjusted for timber roll. Slight variations in county and state totals between reports are due to rounding.

Notes:

- The net excess M&O levy amount is the levy certified for collection adjusted to exclude the portion attributable to timber roll. While timber roll assessed valuation is a portion of total district assessed valuations, the levy against it is treated differently than property taxes. Timber taxes are calculated and distributed by the Department of Revenue as state funds and reported in the General Fund as Revenue Account 1500.
- Spring and fall property tax collections were calculated using local property taxes reported on County Treasurer's Monthly Reports to School Districts in Revenue Account 1100. Spring includes January 1 through August 31 collections. Fall includes September 1 through December 31 collections.
- Districts should also take into consideration the influence prior year and delinquent tax collections have on collection percentages shown on these reports. Collection percentages are based on the current year levy. When levy amounts increase, prior year, and delinquent taxes make up a smaller portion of taxes collected and thereby decrease tax collection percentages. The opposite is true when levy amounts decrease. If levy amounts change substantially, collection percentages may become distorted and not useful for forecasting revenue. In these instances, consider using the county or state collection percentages.

All Funds Long-Term Liabilities Per Pupil by Enrollment Groups and by County

Long-term liabilities includes the unmatured principal of bonds, warrants, notes, and other forms of noncurrent or long-term indebtedness that have a maturity of at least one-year from the date of issuance.
